This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

The following list must not be taken as a complete catalogue either of the printed ritual books of the English uses, or of all that are extant of each class. It is nothing but a first attempt, compiled mainly from the different catalogues with the kind assistance of a few gentlemen to whom the design of forming it had been made known. It was considered that an incomplete and inaccurate list would be better than nothing, and if this attempt should induce any one to undertake the task of preparing a more perfect and complete one, the object of the compiler will be gained. In this many and great imperfections will be found; indeed, with the exception of the majority of the Missals, hardly any attempt has been made to correct the materials of which it is compiled.

Where several names occur of the printers and publishers of the books in the title pages and colophons, it would seem that no uniform system has been adopted by those who have prepared the catalogues. Sometimes the name of the publisher is given, sometimes that of the printer; and occasionally there is additional confusion when the same person has two names: it is likely therefore, that many of the editions which in this list seem to be different, will turn out to be the same. It may be mentioned, however, that among the Marian editions of the Manual, at least four varieties appear of what would at first sight seem to be the same book; two copies in particular appear to have been reprinted page for page from some older edition, but the arrangement of the contents of each page differs considerably. There are also at least four Processionals printed at London in 1555. It is probable that inaccuracies in the catalogues may also affect the Hymnals, some of those noted as Hymnals containing also the Sequentiæ. A similar cause of error may apply also to the Ordinal, and to the Horæ and Prymers.

In some cases the date of the colophon and that of the title page vary by a year, and when one or other of them is deficient in different

copies, a new source of ambiguity occurs. The size of the books is also very differently described in the catalogues. The smaller Missal of 1494 has been described as 4to., small 8vo., and 12mo. These various causes of inaccuracy and uncertainty made it seem best to print simply the descriptions that came to hand, without attempting to improve the appearance of the list by ranking those that might probably turn out to be the same edition under one head :—this has been done only when there seemed no doubt on the subject. It must not be supposed that all the libraries mentioned in the last column have been exhausted. In many the search was unavoidably very hastily made, and at least in the more important of those which the compiler has gone through himself, he is satisfied that the search might with advantage be made over again. Any corrections and additions will be thankfully received by the Compiler.

It may be well to add, that a complete catalogue raisonnée of all books of this nature, whether printed or MS., ought to be made, comprising, as to the MSS., a careful abstract of the contents of each, with a notice of the probable age, and of anything that might help to fix the place where it was written or was intended to be used ; and as to the printed books, not merely a list such as this, but a book, containing an enlargement of the sketch given in Gough's Topography, vol. ii. pp. 319—361, and 425—427, supplying the title and colophon, foliation, number of lines in a page, and measure of the letterpress in each column, along with any peculiarities of the woodcuts or other ornaments, and the nature of the type of each book, and including, besides, an account of the origin and history of the Anglican uses.

Any information on these heads with which the compiler may be favoured shall be carefully preserved, with a view of turning it to a good account at a future time.

* This book contains a large fragment on vellum; it has been added to with parts of an edition also by Morin, of the date 1510, and it was supposed to be of that year, or of nearly the same period, till Mr. Maskell discovered that it was of the same edition with his.

† The description Dr. Cox has been so good as to give me of this book, leads me to conclude that it is the same book with the one in the Queen's Library, excepting a leaf or two at the end: for the colophon, is substituted the usual wood-cut mark of M. Morin. It belonged to Archbishop Pole.

‡ 10 Kal. Julii; this book is marked in the catalogue as of 1510, Kal. Julii. Dr. Bandinel was so obliging as to take some trouble with this question, and his opinion was, that the earlier date is the most likely one.

* These seventeen books appear to be of the same edition: see Herbert's Ames, 1580, for some difference between the copies of it.

† The small Tract, A. B. C., was found in the original binding of the Missal of 1557, at Ushaw. It consists of half a sheet of eight pages, by Day. No date.

‡ I think these eleven copies are of the same edition, and by Day.

§ At the end of the copy in the British Museum, dated 1527, Paris, sold by Byrkman, there are several sheets of a different edition.

‖ This book ends with the prefaces, the one at Queen's College begins with the Canon, I suspect that they may be found to be parts of the same book.

ADDENDA.

The following list from the Rev. T. Lathbury, has been received too late for insertion in the proper places :—

Sarum Missal. fol. Paris. Regnault. 1534.
——— Breviary. 4to. London. Kyngston and Sutton. 1555.
——— Sacra Institutio Baptizandi, &c. 4to. Douay. Kellam. 1604.
Prymer, L. and E. 4to. London. Grafton. 1545.
——— E. and L. 8vo. London. John Wayland. 1557.
——— — Another. 1559.
——— — Another. (1558.)

Mr. Lathbury adds the following remarks :—" In the list is a Primer of 1566. This is Elizabeth's, and is very much like King Edward's. But there is another of Elizabeth's of 1559. A copy is in Christ Church Library; and one in the University Library of Cambridge. This is a much more remarkable book, as it retains Prayers for the Dead, and follows the arrangement of Henry's Primer of 1545. Besides this there is another differing both from that of 1559 and 1566. I know only of one copy, which was Gough's. It has no title; but he assigns it the first year of Elizabeth. It retains Prayers for the Dead, and follows the Book of 1545, but differs in many things from that of 1559. As the book of 1566 is given, these should be inserted, since they are much more like the earlier Primers than those of 1566. The book which was Gough's, I now have."
